

# iCloud

1. Go to [iCloud](#)
2. Sign in with your Apple ID and password

## What to use iCloud for:

- You can use it to store your iWork documents on your iPhone, iPad, or iPod
- Create and edit notes from your iPhone, iPad, or iPod
- Access your Contacts
- Access your Calendar
- Access your Reminders on your iPhone, iPad, or iPod
- If you have the Find your iPhone app on your iPhone, iPad, or iPod then you can locate your iPhone, iPad, or iPod and lock it, or set a password, or even reset it
- Lastly you can also access your Me account Mail
